DREW BIG AUDIENCE

THE CHRIST OF THE WILDERNESS AND JORDAN DISCUSSED.

LESSON OF TEMPTATION

What Dr. John Had to Say in His Fourth Lecture at the First M. E. Church Thursday Evening.

Dr. John P. D. John gave the fourth of his series of lectures on Thursday night at the First M. E. church to a large audience. The subject was "The Christ of the Wilderness and the Jordan."

He read from Matthew's gospel those portions of the third and fourth chapters, giving an account of Jesus' baptism by John the Baptist in the Jordan river and the three events wherein Jesus is tempted to use his miraculous power to satisfy his earthly cravings. The theme of the lecture throughout was the preparation of Christ for His mission on earth.

Christ passed from his infinity of the pre-incarnation to the finite form of the babe in the manger. This babe was not infinite for infinity cannot increase, and this child grew in body and mind just as all human beings must grow, and his previous state as one of the infinity did not interfere with his human method of development. A most important fact that we should keep in mind all the time is that the limitations were self-imposed. Whenever Christ chose to reveal his Godhood it was always for something outside of himself, not for his own sake, but for the sake of others. But for nearly all purposes it was best that he reveal only the human side of his nature and in doing so he put himself shoulder to shoulder with common men.

During the thirty years of Christ's life in which he lived the life of an ordinary Jewish citizen history lifts the curtain but a few times. At the end of eight days the babe is circumcised and at the end of twelve he was taken to Jerusalem to be presented in the temple. For twelve years we hear nothing more of him except that "the child grew and waxed strong in spirit, filled with wisdom," and "the grace of God was upon him."

At the age of twelve we find him at Jerusalem with his parents where all had gone to celebrate the feast of the passover and where he tarries in the temple to listen to the learned doctrines and to ask questions.

For eighteen years more Christ, as the lowly carpenter, lives the life of an obedient son, a kind neighbor and ideal Jewish citizen(but it was during this period that he must have seen and communed with God concerning his mission of saving the human race, for when John the Baptist came forth from the wilderness to startle the people with his preachings, he offers himself for baptism as his first step in the plan of redeeming the race. While he has no sins to be washed away he chooses the sinner's method of purification that he may place himself on a level with humanity. This putting of himself in the place of others is the keynote of the incarnation—the secret of Christ's power.

It was at the close of the baptism that God for the first time openly manifested Himself to Christ and set the stamp of approval upon his first step as recorded in the following scripture: "And the Holy Ghost descended in a bodily shape like a dove and a voice came from heaven which said, Thou art my beloved Son; in thee I am well pleased." Christ is then subjected to three temptations: First, the devil tempts him to satisfy his hunger at the end of a fast of forty days and forty nights by using his miraculous powers. This temptation represents the sin of humanity through bodily appetite. Second, he is tempted to throw himself from the pinnacle of the temple, gaining the applause of the people by miraculously saving himself. This represents the sin of humanity through the love of applause. The love of applause is universal and when sought by honorable means is a worthy desire, but Christ refused to use a method which could not be used by the people themselves. A good end never justifies an unworthy means and if God wants a good deed done He will see to it that there is a good way to do it. In the third temptation, the devil promises Christ all the kingdom of the world if he will but fall down and worship him. This temptation represents sin which comes from ambition for power.

Christ refused in all three cases to use his miraculous power to accomplish his Messianic mission and the devil left him as he will leave us if we use Christ's methods of defeating him.

RUFUS BELCHER DEAD.

Farmer Living Northeast of Maryville Suffered Long Illness—Funeral Saturday Morning at Oak Hill.

R. K. Belcher, for twenty-eight years a resident of the Maryville community, died Thursday noon at 12.30, at his home, five miles northeast of Maryville. Mr. Belcher had been a sufferer for two years and had not been able to leave the place.

The funeral services will take place Saturday morning at 10:30 o'clock at the Oak Hill church, four miles east of Maryville, and burial will be in the cemetery there.

Rufus Kirtley Belcher was born in Mercer county, West Virginia, February 10, 1834, and died January 22, 1914, making him nearly 75 years old at his death.

He came to Nodaway county with his family twenty-eight years ago and they have made their home here since. He is survived by his wife and eight children, six sons and two daughters. The sons live in and around Maryville and are Erastus, James, Edward, John, Luther and Virgil Belcher. The daughters are Mrs. Cam Workman of Adrian, Mo., and Mrs. J. F. Belcher of Arkoe. One daughter, Mrs. Lawrence Lynch, died ten years ago at Hydro, Okla., and a son died in infancy.

Mr. Belcher was a true man in all the relations of life. He was not a member of any church, but he had faith in God and His Son. He called his family about him a short time before he died and told them the end was near, that he was ready to go and was glad he was to meet his mother and children who had preceded him so many years ago. He asked all to live in a way that would entitle them to meet him in the land where there is no suffering or sorrow. A little while later he went to sleep, gently and peacefully, into the sleep of death.

GIVEN EXTRA CREDIT.

High School Offers Unit for Non-Smokers, Open-Air Sleeping, Milking, Saving Money.

The following is what the Chillicothe high school is doing that will be of interest to the school patrons of this city:

In Chillicothe, if a boy does not smoke during his high school course he receives one-fourth unit extra credit; if he goes to Sunday school the entire four years, he receives one-half unit extra credit; if he clerks in a store, bank or office during vacation, he receives one-fourth unit for each three months of such work; if he works three months on the farm, followed by an essay on an agricultural subject, he receives one-fourth unit; and if he takes part in athletics he receives one-eighth unit for each year's work in each branch of sport.

If a high school girl prepares one meal daily for three months, makes the beds three months, does the laundry work weekly for three months, makes a dress, waist or other wearing apparel, or sleeps in the open air or with open windows for one year, she receives one-eighth unit extra for each task performed.

Extra credits are also given for music lessons; literary society work; work on high school paper; raising onions, tomatoes, strawberries, celery and corn; judging horses, cattle, hogs and sheep; keeping a systematic savings account for one year with monthly deposits and for milking one or more cows.

The Chillicothe schools are the first in the state to offer such extra credit. Superintendent A. R. Coburn says that this will help unite the home and school, will connect the school work with things outside, will encourage high school pupils to spend a part of their spare time at some useful occupation and will make young people better fitted for complete living.

Credit will not be allowed if the student makes less than 80 in any subject for the year when credit is asked. Sixteen units are required for graduation, fifteen of which must be regular school credit. Seventeen units are required for graduation with credit, and eighteen for graduation with honor. Chillicothe is an accredited school, and students can continue to graduate with the regular school work which is required as entrance to the university. The extra credit offered is in addition to the regular curriculum.

75 TRUE BILLS IN

GRAND JURY REPORTED THAT MANY THIS MORNING.

ARE STILL IN SESSION

Most of Them Are for Gaming and Unlawful Sale of Liquor—Many More to Come, It is Said.

The grand jury reported in circuit court this morning that seventy-five true bills or indictments have been returned by that body. After making the report the grand jury resumed their labors, and it is thought that they will adjourn this evening after returning a few more true bills.

It is understood that most of the indictments are for gaming and the unlawful sale of liquor. Also that they are for people outside of Maryville, only a few being for people here.

While a number of witnesses have appeared before the jury, still there have been fewer witnesses and more indictments returned by this grand jury than by any previous one. One reason for this is the fact that Prosecuting Attorney Wright went over the entire county a few weeks ago and talked with a large number of people in regard to violations of the law and from these conversations he secured certain facts and also the names of important witnesses.

BEAUTIFUL ILLUSTRATION.

We Gain by Losing; We Keep by Giving; We Take Wings by Creeping; We Live by Dying.

The atmosphere of Alaska and the Yukon in summer-time was breathed into the sermon by Dr. John P. D. John at the First M. E. church on Thursday afternoon. His subject was "The Fire Flower of the Yukon Hills."

It was a description, and application, of the growth of the Fire Pink, or Willow Herb, a flower which he said he had found growing on the precipitate slopes bordering the Yukon river during the two thousand mile trip which Dr. John made down that great stream at the time of his lecturing trip into British Columbia and Alaska several years ago.

"The climax of Christ's teaching is this: We gain by losing; we keep by giving; we take wings by creeping; we live by dying. In the material world the wildest heroism is seen from the loftiest summit. In the kingdom of Christ the broadest horizon is seen from the greatest depths. In the world of human strife he has most who has most completely filled himself. In the philosophy of Jesus he is fullest who has most completely emptied himself. If this be a paradox, it is the paradox of the Gospel."

TO-NIGHT—

JERRY'S MOTHER-IN-LAW

A two-reel comedy dealing with the family of a young married man, which is invaded by the wife's aggressive mother. Kate Price proves very effective in this part, and proceeds to stir up trouble for the newlyweds, portrayed by Sidney Drew and Clara Kimball Young. The situations are farcical and keep the audience in constant good humor. All the scenes were good. The French ball, in the museum, at the club, the shower bath, shopping, etc. Married folks will particularly enjoy this.

Warrensburg Normal Team Was Too Strong for the Locals—Game Was Well Attended.

One of the fastest exhibitions of basket ball ever given on a Maryville court was played last night when the Maryville Normal team met the Warrensburg normal and was defeated 43 to 24. The locals broke up the team work of the visitors time after time but were unable to show team work on their own behalf, due to the absence of the two regulars.

Captain Jackson of the visitors was the star, making 13 field goals. Swindell played a heady game at guard, both in recovering the ball and at passing. Vandersloot clearly showed that he ranks with the best in the state as a basket tosser. Scott's word at guard was a revelation to the spectators, as he repeatedly broke up the team work and showed good defensive work. Watson played a consistent game, and with more experience would make a very fast man. Miller and Powell, though this was their first game with an outside school, played good ball.

There was an actual attendance of 307 and they displayed more spirit and enthusiasm than has ever been shown on the Normal court.

The rooters came forth with such gusto that the referee, Classon, was slightly perturbed, though it did not seem to disturb the players in the least. Mr. Classon's work throughout was efficient.

The Normal team will take no rest, but are hard at work this evening getting ready for the Missouri Wesleyan game Friday night, January 30. Wesleyan has a fast team and hope to defeat the Normal. Summary:

Maryville — Vandersloot, Watson, Powell, Miller, Scott.

Warrensburg — Robertson, Rudd, Blevans, Jackson, Swindell, Sermon.

Field goals—Vandersloot 5, Watson, Powell, Miller 2, Jackson 13, Robertson, Rudd, Sermon 2.

Free throws—Vandersloot 6, Rudd 2, Sermon.

THEIR RESIDENCE BURNED.

Mr. and Mrs. David White, Nine Miles Northwest of Maryville, Have Hard Experience.

The residence of Mr. and Mrs. David White, who live nine miles northwest of Maryville, stood and watched their residence, with nearly all the contents, burn at noon Thursday, after they had done all they could to check its progress, and then failed in saving the household goods, excepting a few articles. The fire caught from the flue in the small kitchen built on at the back of the three rooms of the house. There is no insurance on the house, and the owner of the house and the farm on which it stood, Lon Thompson, who lives a mile north of the place, has not estimated his loss.

Mr. and Mrs. White are at the home of Mr. and Mrs. George Williams, near Quitman, for the present. Their son, Ralph White, lives south of the Thompson place, and they own a farm west of the one on which they have been living. They were not on a telephone line and no assistance could be summoned. Neighbors came just as the house was about burned.

WALKER DREDGE HURT.

Elmo Man Met With Two Accidents Thursday When Load of Corn Fodder Turned Over With Him.

Elmo, Mo., Jan. 23.—In an unconscious effort to boost the good roads movement, Walker Dredge of this city sustained two upsets yesterday while hauling corn fodder into town. The first accident occurred in the morning the load turning over, but a sprained wrist was all Mr. Dredge got out of this mishap. The real mess of trouble came after dark, when the last load turned over into a ditch at the foot of the hill by the Christian church. The fodder was heavy, being full of corn, and Mr. Dredge was caught doubled up under the mass and was suffering greatly until dug out a few minutes later. This occurred about 7:30, and he was unconscious until 11 o'clock. He was carried to his parents' home, about a half mile away, and it is impossible to tell at this moment how serious his injuries may be. He has a broken wrist and a fractured knee, but his condition has not permitted a thorough examination.

WILSON'S MESSAGE

BREATHES OF PEACE, STEADINESS AND JUSTICE.

MUST PAY THE PENALTY

Corporation Abusing Public to Be Brought to Account—Present Congress Did Much.

(By W. C. Van Cleve.)

Washington, D. C., Jan. 21.—President Wilson yesterday delivered his address before a joint session of the two houses of congress, and the old ship is now finally cut loose and heading under full steam for its final destination. The message is regarded as a splendid document. It breathes peace and steadiness to the business world and justice to the general public. It recommends that business shall not be disturbed in its legitimate channels, but insists that when corporations are misused and made to abuse the rights of the general public, the individuals guilty of such manipulations shall be made to pay the penalty instead of assessing a fine against the inanimate instrument of their designs. In other words, the gun that carries the fatal ball is not to reap the wrath of outraged justice, but the hand that pulls the trigger must be brought to account.

The message also advocates the creation of a business commission, an "interstate trade commission," whose business shall be to gather information, make adjustments between great business undertakings, and steady the commercial world in times of readjustments and financial unrest. It is to act "as an instrumentality for doing justice to business where the processes of the courts or the natural forces of correction outside the courts are inadequate to adjust the remedy to the wrong in a way that will meet all the equities and circumstances of the case," to use the language of the president.

The Sherman anti-trust law is to be allowed to stand as sufficient with such amendments as will make it clearer and relieve the courts of the necessity of guessing at its meaning. He assures the world that "the antagonism between business and government is over," and it is desired to bring about such changes as are deemed necessary "with as few, as slight, as easy and simple business readjustments as possible in the circumstances, nothing essential disturbed, nothing torn up by the roots, no parts rent asunder which can be left in whole combination." "Fortunately," says he, "no measures of sweeping or novel change are necessary. It will be understood that our object is not to unsettle business."

A law to prevent interlocking directorates is another feature of the legislative program. With these and a few more measures of general importance the congress will have done a great service to the public and be ready to go back home and give an account of its stewardship. It may all be accomplished by the first of June and it may not.

* * *

No member of the present congress who has stood faithful to the majority need be ashamed to render an account to his people. It has already accomplished more of importance to the country as a whole than an average congress through its whole life. It undertook to reform the tariff when the great institutions of the country were powerful and in full battle array and threatening destruction to the country if it were disturbed. The work was undertaken with the full realization of the penalties of error, but with a determination to relieve the people of unjust burdens. It was carried out and completed and evidences aer increasing daily that its provisions are wise and beneficent. As a companion piece of legislation the reform of the currency system was undertaken. The old system had stood for thirty years with its admitted defects and was regarded as a sacred thing and immune from attack. Nevertheless it was revised within a period of three months and the world is pointing to the new law as a magnificent piece of constructive legislation. Without another effort this session could adjourn today with enough to its credit to entitle it to a new lease of life. It will not adjourn, however, and will be working hard to clear up the docket for several months yet. It never was busier than at the present time.

The Guilford high school will play the Graham high school game of basket ball on Friday evening at the opera house in Guilford.

The dance and card party given in Woodmen hall Thursday night by the Knights of Columbus was the most successful social affair that has been given by them. Fifty-eight couples of young people participated in the dancing, the music being given by Maulding's orchestra, while fully 250 other guests passed the time in playing cards. The hall was handsomely decorated in red and green, the lights hooded in red in the dance hall, all of which aided in showing to advantage the many pretty costumes worn. Mr. and Mrs. Charles C. Evans of Parnell were married twenty years ago Thursday, January 22. No one would ever guess they had been married so long, or that they had a daughter in the Maryville high school, for time has dealt lightly and life has been happy and prosperous, and the years have come and gone so quickly that they hardly knew it themselves until a crowd of their friends came to their home Thursday evening to remind them. Progressive somerset was played and ice cream, cake, coffee and home-made candy served. Mr. and Mrs. Evans were presented a set of china dinner plates. THAT TIRED FEELING

Suggests Grandmother's Remedy.

It's true, the season is here with its sudden changes, and the old idea that we need a blood medicine is not without reason. Too much heavy food has caused a torpid liver, sluggish blood, and a weak, tired out feeling.

Sulphur, cream of tartar and molasses was grandmother's remedy, but that has long ago been displaced by Vinol, a combination of the two most world famed tonics, namely, the medicinal curative elements of the cod's liver, without oil, and iron for the blood.

Vinol builds you up, makes you eat more and digest better, makes your blood rich and pure—puts healthy color in your cheeks.

N. G. Clift of Opelika, Ala., says: "Last spring I was all run-down, no strength, no appetite. I took Vinol and was greatly benefited by its use, as I soon felt strong and well as ever."

We guarantee Vinol to satisfy you and refund your money if it does not. Orear-Henry Drug Co., Maryville, Mo. —Advertisement.

Wm. Mozingo Writes Again.

Editor Democrat-Forum: This is in answer to the piece that was written by the financiers of Council Corner. We have examined the records of the annual meetings and cannot find any place it was ever voted to them, but we find in the minutes of board meetings that they voted the salary. The by-laws say that they fix the salary of the secretary, treasurer, switchboard manager and the girls. Wm. Job says he served as one of the board members for two or three years and he never got a cent. I found out immediately after I got in that I was not allowed a salary, and I have had plenty of time to resign since then if I did not want to serve. I saw Mr. Burris the Saturday before he resigned, and told him I believed we were going to run in debt, and he told me he did not have time to attend to it and he was going to resign. I told him not to, and to come up to our meeting that evening and the next Saturday he did resign. I told Mr. Wray that I believed we were going to run in debt, but I didn't know why they resigned, unless it was to put the debt on somebody else.

But the new board is not responsible for any debts the old board made. The old board is responsible for their debts themselves. There was no $600 in the treasury when he wrote that piece. We paid $50 of a debt a few Saturdays ago. We have got enough money to pay the help when it is due. There will be no more bills paid with my consent unless we have a surplus over and above the help. The old board is responsible for these debts. I am ready to pay my part of them any time the rest are ready. One corporation looks as good to me as another. They were in debt $560 in odd numbers when I went in. They were threatening to publish us. I think the credit as good today as it was then. I begged the people to pay it, and the most of them did. But I will never beg them any more. We can go to the Hanamo for 50 cents per month. It will be cheaper than a corporation that you can build up. But we are not going. We have a better place to go. I never promised to reduce the expenses one-half, nor would any other man who had any sense. You said I wanted to discharge the present manager at $85 per month and hire one at $100 per month. He said he would get the Bell into our switchboard and enough phones to make up the difference. I told them that I was not married to that man; that I was in favor of hiring our linemen.

That motion that he has reference to was not according to the by-laws. It was for the board to pick a committee to recommend incorporation or to amend the by-laws. The by-laws say nothing about incorporation. But it does say that five of the board agreeing can recommend the change of the by-laws up to the annual meeting. The new board has had nothing to do with making these debts that they had the majority.

If they can find any place at an annual meeting to pay them a salary I will apologize for what I have said about the salaries through the papers. There will be no more answers through the papers by me. I will leave myself in the hands of the men that I have dealt with in this county the most of my life, so far as truth and honesty are concerned.

J. M. Lamar of Elmo Writes.

Editor Democrat-Forum: I saw a communication in your welcome paper of January 15 from Rev. M. DeWitt of Barnard of some of the early ministers of the Maryville circuit of the M. E. church, South, which struck me about right. He said he would come again, and I hope he will. I know some few little things and those old days sound good to me. I knew W. G. Caples, Jesse Bird, Timothy R. Baxter and A. P. Parker, and I have heard them all preach, and I doubt if the Missouri conference would shake the brush if it could shake out four that would equal them. We organized a Sunday school in this neighborhood in 1857 and it is still going.

Yours as ever,
J. M. LAMAR.

"SYRUP OF FIGS" FOR CONSTIPATED CHILD

Delicious "Fruit Laxative" Can't Harm Tender Little Stomach, Liver and Bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup company."—Advertisement.

EAT CABBAGE, FISH SAUSAGE, NEW BREAD

No Indigestion, Gas, Sourness or Upset Stomach if You'll Take "Pape's Diapepsin"—Try This!

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.—Advertisement.

Come on With Hog Stories.

Pete Hamil, who used to run a saloon in Maryville, but who is now a temperance lecturer down in Texas, was given to explain when seeing a bunch from here on the streets of his town, "Hopkins Against the World!"

We believe he was right, for people of this vicinity always lead in every undertaking.

Just now it is hogs. J. Arch McMaster, the Prairie Star stockman, west of town, having a bunch of Duroc Jersey pigs, only 10 months of age, that average in weight 350 pounds.

Now, come on, you hog raisers, no matter where you live or what kind of hogs you grow—can you come any way near equaling this record, let alone trying to beat it.—Hopkins Journal.

BUSINESS AGENT OF PEACE BILL

Measure to Create Interstate Trade Commission Introduced.

CLAYTON SUBMITS IT TO HOUSE

Effort to Launch It Simultaneously In Senate Is Blocked by Smoot—Carriers Only Corporations Not Subject to Its Regulation.

Washington, Jan. 23.—A bill to create an interstate trade commission, one of the four measures suggested by President Wilson in his recent message to congress for anti-trust legislation supplemental to the Sherman law which would eradicate evils of big business and restore confidence and commercial activity, was introduced in the house.

Following a conference between Attorney General McReynolds, Senator Newlands of the interstate commerce committee, Representative Clayton, chairman, and other members of the judiciary subcommittee, Mr. Clayton submitted the measure and it was referred to the interstate and foreign commerce committee. An effort by Senator Newlands to introduce the bill simultaneously in the senate was blocked by Senator Smoot, owing to debate on the Alaska railroad bill.

While the president recommended in his message the supervision by the interstate commerce commission of the issuance of railroad stocks and bonds, he took occasion to emphasize that this did not necessarily mean that past issues of securities would be inquired into or affected by the present legislation.

Not in Platform.

Nor did the president consider that the regulation of railway securities has anything to do with the subject of regulating stock exchanges. Legislation on this subject, he explained, was not recommended in the Democratic platform and he did not feel that he should recommend anything that had not been included in the platform.

The commission proposed by the bill should absorb the bureau of corporations and which would have as its first chairman the commissioner of corporations—in this case, Joseph E. Davis of Wisconsin—would consist of five members, salaried at $10,000, and would have powers of inquisition over all corporations, save common carriers, which are regulated by the interstate commerce commission. It would also act as an advisory board to the attorney general and the courts, but its most important function is designed to assist business and the government in preventing violations of the Sherman act; in aiding the attorney general to terminate alleged unlawful conditions by agreements, such as have recently been executed in the American Telephone and Telegraph company and New York, New Haven and Hartford railway cases.

In this capacity the commission would serve in accordance with the suggestion of the president in his message as the business agent of peace.

Of the five members of the body not more than three could be of the same political party. All would serve seven years, except at the beginning, when the chairman would serve seven years and the other four three, four, five and six years, respectively. All the commissioners, except the first chairman, would be appointed by the president, subject to confirmation by the senate and subsequent chairmen would be elected by the commission from among the five.

Bear in Mind--

Berney Harris does not only mark his Show Window Goods in Plain Figures.

He marks Every Article as it comes in his house in one Low Priced Plain Figure Price—from which he never Deviates—

Why don't All the clothiers do this?

Berney Harris will never sell your Neighbor any Cheaper than he does You.

What other Maryville Clothier can Truthfully say this.

Are you not entitled to buy as Cheap as your Neighbor?

Berney Harris thinks you are—

That is why he marks his goods So Low at the Start in Plain Figures.

Then you Know you are buying as Low as your Neighbor.

Don't every Level-Headed man Know that he can buy Cheaper from a One Priced merchant like Berney than from a merchant who has Two Prices—whether in the season or during Special Sale season?

Berney's $18 Coat at $13.75 is a Bigger Bargain than any competitors $22.50 Coat if reduced to $15, because—

A Coat that Berney marks $18.00 at the Beginning of the season, his Competitors mark $22.00 or $22.50.

They are Compelled to do this in order to Come Down.

Berney Marks his goods at the Lowest possible price to Start with—

Our competitors, having Two Prices (as they All have the year round) mark their goods in Letters (which no one can read) instead of Figures.

Then, when they Advertise $22.50 values for $15 in a Sale, they do not give as good values as Berney's $18.00 value, marked $13.75 in a Sale.

And So On throughout the Entire List.

Which Demonstrates that Berney Harris' Prices are Lower than others, either at the Start of the season or during a Clearance or Cut Price sale.

All of Berney's Customers Realize this.

That's Why They Stick to him.

We are literally Slaughtering Prices on the following, especially when you Consider how much Lower we mark our goods Originally.

Men's Fancy Suits	Men's Blue Serge Suits	Boy's Fancy Suits	Boy's Blue Serge Suits

We show the Garments in our Windows with both the Original and Sale Price in Plain Figures.

And Every Garment in our Store is marked in Plain Figures.

Our Competitors mark their Window Display Goods in Plain Figures.

Why don't they mark All Their Goods in Plain Figures?

Because there is a Reason and a Very Profitable Reason to them.

Those of you who have Looked and Examined the goods Carefully—don't You think our Colors, Styles and Qualities are far Ahead of any on Display in Other Stores?

All our Old Customers are Patronizing us in this Sale—

But we want More than that—we want New Customers also.

We want You to Join our Ranks.

That is Why for Ten Days we are Slaughtering the Cream of Our Stock.

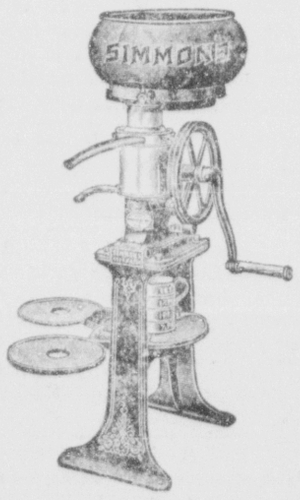
Simmons Self-Balancing CREAM SEPARATOR



It is the most simply constructed machine made, having fewer parts. It is the easiest to clean. Having a self-balancing bowl, it is the easiest to run; having the discs pointed downward, it requires no attention: having the discs interchangeable, it requires no care in replacing them. It is self-oiling and is as nearly mechanically perfect as a machine can be made; therefore a child can run it and take care of it without the slightest trouble.

The State Road.

Hopkins, as was decided on some months ago, gets one of the state roads leading out of Maryville, and the state will allow $15 a mile to be used in keeping this road dragged and in good condition. Seventy cents a mile is allowed for dragging, which means that the state will pay for having each mile dragged twenty-one times a year and this will keep the roads in splendid condition if they are dragged at the proper time.

E. C. Wolfers, Sr., will look after the dragging of the roads between the Davey Jones river bridge, this side of Pickering, to the Iowa, state line, near the old Howard Hensley farm.

Mr. Wolfers is a good roads enthusiast and a better man could not have been selected, for he will take an interest in the matter and see to it that the roads he has under him are kept fully as good if not just a little better than any of the roads on the route.—Hopkins Journal.

TEN 'FRISCO DIRECTORS SUED

Receivers Seek to Recover More Than Fourteen Millions.

St. Louis, Jan. 23.—Suit to recover more than $14,000,000 was filed in the United States district court here against ten men who were directors of the St. Louis and San Francisco railroad in 1910.

The suit was filed by attorneys representing the receivers and the action was brought in accordance with recent instructions of Circuit Judge Walter H. Sanborn, before whom the receivership proceedings were brought.

The ten men named in the suit were B. F. Yoakum, James Campbell, William K. Bixby, C. W. Hillard, B. L. Winchell, E. V. R. Thayer, A. S. Grieg, Frank Trumbull, Thomas H. West and Hans Winterfelt.

The petition says the men named were directors of the Frisco from Dec. 1, 1909, to June 1, 1910, and that during that time the St. Louis, Brownsville and Mexican railroad was sold to the Frisco. The suit is based on the Brownsville deal.

Printed on the front of every official time table which goes to Wabash employes are two large circles, "SAFETY ALWAYS." Printed on the back of every official time table are these words: "SAFETY should be the first consideration of every employe." It is a constant admonition to every Wabash trainman, for the protection of every Wabash traveler. Beginning with the human factor, the Wabash surrounds its travelers with every mechanical safeguard known to modern railroadism: Steel equipment; automatic electric block signals; miles of double track; heavy rails and substantial roadbed; telephone dispatching, etc.
